March 11, 2004

**Subject: Michigan Emergency Management Plan (MEMP) and  
MEMP Executive Summary (EMD/MSP Publications 101 and 101a)**  
**Attention: Local and State Emergency Managers and Other Interested Parties**

Attached are CD and hardcopy versions of the new Michigan Emergency Management Plan (EMD/MSP Publication 101) and MEMP Executive Summary (EMD/MSP Publication 101a), both of which have been revised into an Emergency Support Function (ESF) format. These new documents **REPLACE** all previous editions of EMD/MSP Publications 101 and 101a. Please **discard** all old copies that you may have of the two documents.

The new MEMP – at 342 pages in length – is roughly half the size of the previous plan versions (660+/- pages), yet contains considerably more material on Weapons of Mass Destruction (WMD) attacks and other natural, technological and human-related hazards described in the Michigan Hazard Analysis (EMD/MSP Publication 103). The new MEMP is easy to navigate and use, is visually more appealing, and provides an accurate and up-to-date depiction of Michigan's emergency management/homeland security system.

The MEMP Executive Summary, at 70 pages in length, provides a synopsis of the material presented in the larger MEMP. It is appropriate for use in meetings, training workshops, or other situations where there is a need to convey information about the essential elements of Michigan's emergency management/homeland security system but not necessarily the detailed procedural aspects of the plan.

If you have specific questions about either document, please contact Doran Duckworth, State Planning Unit Manager, at 517-333-5045, e-mail [duckword@michigan.gov](mailto:duckword@michigan.gov). Please note that the CD has an instruction card inside the mailing envelope to assist you in viewing and navigating through the various plan sections.

Thank you in advance for your continued support of state emergency management and homeland security activities.

Sincerely,

JOHN ORT, CAPTAIN  
Deputy State Director of Homeland Security  
and Emergency Management
